

## DisplayPort 1.2 male to DisplayPort female extension cable

**Item no. FS12011**

### Specification:

- Cable Conductor: Bare Copper
- Insulation: Foamed PE SKIN/HDPE
- Wire Gauge: 30AWG
- Jacket: PVC
- Compliance: RoHS, REACH

### Description:

This cable is the ultimate bridge between your Ultra 4K TV, HDTV, monitor, projector, and any DisplayPort source device. Envision sharper, more vibrant visuals with resolutions reaching up to 4K (3840×2160, Ultra HD) and 1080P (Full HD). Besides, you will indulge in flawless audio pass-through spanning uncompressed digital channels, whether a dynamic 7.1, a rich 5.1, or a crisp 2.

Crafted meticulously, the DP M F cable adheres strictly to the DisplayPort 1.2 standards. Gold-plated connectors ensure an uninterrupted signal, while the fully shielded conductors guarantee immunity from EMI/RFI interferences.

The latch design of the DisplayPort connector ensures it stays put, minimizing risks of disconnections.
