Description:

For a top-notch cable to upgrade your home theater or desktop setup, the FARSINCE 8K Mini DisplayPort 1.4 Male to Male Cable is a game-changer.

It handles up to 8K resolution at 60Hz, giving you incredibly sharp visuals, perfect for gaming or streaming high-definition content.

The audio is just as impressive, supporting uncompressed digital 7.1, 5.1, or 2 channels for clear, immersive sound.

Its 24-K gold-plated connectors and fully shielded conductors ensure strong signal transfer and protection against interference.

With its sturdy Injection mold and durable PVC plus cotton mesh jacket, this cable is built to last.

It also supports HDR, HDCP 2.2, MST, FreeSync, G-Sync, and more, making it a versatile choice that keeps up with high-performance demands.
